CUSTOMIZATION IN A CLASS BY ITSELF

EVEREST CL
CLASSIC

The advantage of the Everest CL

Offering extreme versatility, the Everest CL reefer can be divided into as many as three controlled temperature compartments and an ambient section to accommodate a variety of hauls. Whether your operation is in grocery, dairy, multi-temperature, or food service delivery, the Everest CL can be customized to meet your unique needs.

Let us show you how the Everest CL delivers dependability, quality and superior performance for the lowest total cost of ownership.

Great Dane

The Everest CL features designed-in strength and minimal maintenance for long lasting performance.

■ Versatile, Durable Design

Offering extreme customization, this trailer can be designed to meet the unique needs of any grocery, dairy, multi-temperature or food service operation.

■ Panel Foaming Process

The industry's most advanced modular panel foaming process produces a more thermally consistent and superior product.

■ PunctureGuard Interior Lining

A premium interior lining, PunctureGuard, is standard and combines light weight with extreme durability.

■ Heavy-Duty Floor Construction

Everest floors feature a heavy-duty, 16,000 lb-rated aluminum duct floor and are engineered for maximum durability and ultimate defense against moisture intrusion.

■ Front End Protection

The lower front of the trailer is protected from corrosion by a stainless steel front bottom rail. The upper coupler is constructed with galvanneal components and additional rust-preventative coatings for a long-lasting, strong and durable connection.

■ Durable Roof Construction

Standard .032" bonded composite roof system is industry leading lightweight and thermally efficient.

■ Premium Landing Gear

Great Dane's Model 60 landing gear features all-bolted construction for ease of repair and maintenance, and is strongly braced with angled bracing both fore and aft and with K-bracing between the legs.

■ Strongest Rear Frame

All hinges, lock rods and door hardware are fully recessed within the 2" deep door post. When closed, doors are completely restrained within the protection of the rear frame, even if hinges are damaged or removed.

■ Suspension Air Slider System

Hendrickson ULTRAA-K air slider system is not only the lightest weight solution available but also features exclusive technology that delivers enhanced strength and durability.

■ LED Lamps and 10-Year Wiring Harness

100% LED Grote lamps and exclusive dual-intensity ID cluster lights are designed to improve visibility and extend service life. This all-LED system comes standard with the fully modular, maintenance-free Long Life Light System backed by a 10-year warranty

■ Premium Wheel End System

Stemco's Platinum Performance Plus Wheel End System features an exclusive 6-year limited warranty.

■ Side Doors

Unique side door design delivers unparalleled performance. Available with multiple side door heights, widths, and locations to provide quick and easy access to cargo.

Product shown may feature optional equipment. Available options subject to change without notice.

CL

- **Innovative Foaming Process** controls critical parameters to ensure optimal foam quality for maximum thermal performance and ensures specified insulation thickness is consistently achieved. This process creates superior lining adhesion and flat, smooth walls.
- **Modular Panel Construction** produces a more consistent and superior product and makes possible quick, easy replacement of entire wall or roof panels with equally durable and thermally consistent panels.

Scan this QR code to watch a video about Great Dane's innovative foaming process and modular panel construction.

- **Movable Bulkheads** allow for the simplest form of multi-temp compartmentalization. They can be moved or removed quickly to facilitate various loads and backhauls. Flat, smooth lining of sides and ceiling provide excellent surfaces for divider bulkhead sealing.
- **Long Life Floor System** features a heavy-duty, 16,000 lb-rated aluminum duct floor automatically welded to seal out moisture. Composite sills support the floor continuously for maximum support and are anchored by sill screws that employ an organic multi-layer coating system that resists corrosion. An impact-resistant thermoplastic sub-pan completes the floor design creating an extremely durable floor.

- **PunctureGuard Interior Lining & Scuffbands** is lighter and stronger than any other lining option. A standard feature, PunctureGuard has nearly three times (3x) the peel strength of other linings, making it extremely resistant to delamination, and above all, it provides the most impact resistance available in trailer linings.
- **Heavy-Duty Concentrated Reefer Cargo Safety-Grip Floor** is the highest forklift-rated floor in the industry and is a popular option for many grocery and foodservice applications. The positive traction Safety-Grip surface helps improve traction.

- **LED Interior Lighting** offers better performance, greater illumination, easy replacement, and is available in dome and spot lamps. Installation options include ceiling and side wall placement. Interior lighting functions are streamlined using a unique nose-mounted timer switch, which eliminates the need for a separate pressure switch.

- **Fastener-Free Bonded PunctureGuard Scuffband** provides maximum protection with minimal weight and heat transfer. Additional material height options are available.

- **Reconfiguration** options allow for maximum productivity. Using center partition bulkhead systems with dual evaporator host unit and remote evaporators, the total inside area can be divided between as many as three controlled temperatures and an ambient section. This achieves precise control of temperatures, while providing extreme flexibility to reconfigure for various types of haul.

- **A Roll-Up False Ceiling** is available to allow for bulkhead sealing to the rear of the trailer.

- **Various Cargo Track Options** are available for cargo securement and can be overlaid or recessed at various heights on the sidewall.

- **Electric Door Switches** shut down the reefer unit in non-cooling situations to save fuel and lower maintenance costs.

- **Remote Evaporators** can be installed in multiple locations and combinations. Various evaporator guards are also available.

EXTERIOR FEATURES

■ **Side Door Design** delivers unparalleled performance. A unique design, the blade lock applies pressure evenly for a complete seal for the full height of the door to hold compartment temperatures. The low-profile design of this lock eliminates protruding hinges and lock rods, protecting side doors from unnecessary damage.

■ **LED Exterior Light Package** features Grote's MicroNova Dot lamps and dual-intensity ID cluster lights, along with the Long Life Light System. This sealed harness prevents moisture intrusion, allows for custom wiring, is extremely durable and is backed by a 10-year warranty.

■ **Triple-Fold Rear Door** minimizes cold air loss.

■ **Air and Electrical Connections** are mounted to the front wall on an aluminum mounting channel for easy access and reduced maintenance. A large protector allows for easy access to air and electrical lines.

■ **Painted Black Hubs & Powder-Coated Wheels** have an optimal appearance and provide enhanced corrosion protection and durability while reducing maintenance and refurbishing frequency.

■ **Multiple Access Systems** include various types of steps, ramps and platforms.

EXTERIOR OPTIONS

■ **Wheel Options** A variety of wheel selections to help increase payload and fuel savings are available.

- Aluminum Wheels
- Wide-Base Steel Wheels
- Wide-Base Aluminum Wheels

■ **Tire Options** Optional tire brands are available in dual- and wide-base styles. EPA SmartWay®-verified and CARB compliant brand options also available.

■ **Air Disc Brakes** offer reduced stopping distances when compared to drum brakes and help reduce brake fade. A variety of options are available.

■ **Galvanized Component Options** include crossmembers and side steps.

Aerodynamic Options

Industry's widest selection of aerodynamic skirts and other devices are available.

■ **Automatic Tire Inflation Systems** help extend tire life and increase fuel efficiency by using compressed air from the tractor to maintain tire pressure settings during operation. Multiple tire inflation systems are available as options.

Suspension Options

■ **Hendrickson HKANT-40K Air-Ride Suspension** provides reliable performance for a smoother ride and cargo protection. This system also features long-life Tri-Functional pivot bushings for a smooth ride and Quik-Align for fast and easy axle alignments.

Heavy-Duty Air-Ride Suspension Package

Available for dry freight and specialty vans and refrigerated trailers. The VANTRAAX HKANT – 46K features a tandem slider tailor-made for heavy-duty applications and incorporates the patented QUIK-DRAW pin activation system, high-strength main rails, and "K" braces for durability and frame strength.

Exclusively from Great Dane

ThermoGuard is the only liner that helps maintain insulation performance for the life of the trailer.

Benefits of ThermoGuard

- **Significantly reduces outgassing** of the foam insulation
- **Extends the thermal efficiency** of the trailer
- **Reduces insulation degradation and weight gain** from moisture absorption through the liner
- **Helps maintain the trailer's excess cooling capacity** while reducing unit run-time and fuel consumption

The exclusive metal barrier layer helps maintain a reefer's thermal efficiency as it ages — extending its useful life.

Standard liners do not effectively seal the insulation, and allow a significant outgassing effect as the trailer ages.

ThermoGuard helps prevent weight gain and saves you money.

ThermoGuard saves you money over the life of the trailer!

Fuel Dollar Savings for a Refrigerated Trailer Equipped with ThermoGuard

Fuel Savings for a Refrigerated Trailer Equipped with ThermoGuard

Calculations shown are for a well-maintained trailer equipped with ThermoGuard and assume representative operational factors and conditions for each operation type specified. Your results will vary based on your trailer's specific operating parameters and items such as trailer UA, cooling unit capacity and fuel burn rates, trailer age and condition, number of door openings and regional outdoor temperatures.

ThermoGuard is worldwide.
ThermoGuard liners are in use by some of the leading refrigerated freight carriers around the world.

Maersk Shipping, the world's largest container shipper, uses ThermoGuard technology in its plastic-lined refrigerated containers.

Download our ThermoGuard app from the App Store to learn how ThermoGuard can save you money.

CorroGuard is the most cost-effective corrosion solution available. It not only looks good, but saves you money and adds life to your trailer.

CorroGuard is a spray-in-place thermoplastic coating engineered for superior long-term protection from road abrasion, impact, and corrosion.

The Advantages of CorroGuard

- Highest level of corrosion, impact and abrasion protection available
- Provides the most complete coverage of suspension systems and landing gear
- Textured surface and black color offers significantly better appearance compared to galvanizing and other undercoatings
- Highest physical properties including tensile, tear, and elongation
- Most cost effective solution that adds life to your trailer

Tough as nails, CorroGuard offers excellent chemical and corrosion resistance as well as superior impact resistance to withstand the harshest conditions on today's highways.

UNRIVALED PERFORMANCE.
FROM THE WRENCH TO THE ROAD.

Why trust the service of your premium quality Great Dane trailer to just anyone?

Our technicians know Great Dane trailers better than anyone. That's why service at your Great Dane branch or dealer offers more than just simple repairs. Unlike independent shops, Great Dane locations are staffed with trained technicians knowledgeable about the most current products and repair techniques. Plus, our direct connection to the factory ensures you get the parts you need when you need them.

Drive away with more confidence — Great Dane Genuine Parts and Authorized Service.

ADVANTEDGE
National Aftermarket Parts & Service Program

Support — Where you need it, When you need it.

Great Dane's AdvantEDGE Program connects you to a nationwide network of service locations to make your operations more reliable and easier to manage. Get peace of mind with 24-hour emergency road service, parts price protection, controlled ordering and invoicing, and much more.

Enroll free online or at any participating Great Dane branch or full-service dealer.
